Administrative and Geographical Profile

1. Introduction

The state of Telangana was formed on the 2nd of June, 2014, and it is the youngest state in the Indian Union. It is a land-locked state located in the southern Indian peninsula on the Deccan Plateau, with Hyderabad as its capital. The region lies between 15°50'10" N and 19° 55'4" N latitudes and 77°14'8" E and 81°19'16" E longitudes. It is bordered by Maharashtra on the North and North-West, Chhattisgarh on the East and North-East, Karnataka on the West, and Andhra Pradesh on the South and South-East.

Telangana is ranked 12th in the country in terms of population and ranked 11th in terms of area. The region is majorly drained by Godavari and Krishna rivers with 79% and 69% catchment areas respectively. The most commonly spoken language in the state is Telugu. The other languages used are Urdu, Hindi and English.

1. Introduction

Telangana is a landlocked state situated on the south-central stretch of the Indian peninsula on the high Deccan Plateau. It currently has 33 administrative districts. Telangana boasts a rich and diverse cultural, geographical, and demographic landscape. This diversity is a reflection of the state's historical, social, and geographical dynamics.

Demography refers to the statistical study of human populations – their size, composition and distribution across space – and the process through which population change. Knowledge on the demographic patterns of the state provides insights to the Government to develop effective programmes and policies. It also helps the Government design strategic and targeted policy interventions to address the persistent challenges faced by the vulnerable social groups in the state.

Key Highlights

Total Population

- The total population of state as of 2011 was 3.50 Crores. This was nearly 2.89% of the population of India in 2011. It is the eleventh-largest state and the twelfth-most populated state in India.
- Hyderabad is the most populous district with 39.43 lakhs and Mulugu is the least populous district with 2.94 lakhs residents.
- Projected population of the state as per the National Commission on Population, Ministry of Health & Family Welfare, Government of India, the population of Telangana in the years 2021 and 2031 would be 3.77 Crores and 3.92 Crores respectively. This is 2.77% and 2.66% of the total population of the country in 2021 and 2031 respectively.
- The state's share in the national population is estimated to **decrease by 0.23** percentage points between 2011 and 2031.

Gender-wise population

- Male and Female population in state in 2011 are 1.73 and 1.76 Crores respectively.
- The share of females and males in the total population of the state is 49.7% and 50.3% respectively.
- The sex ratio (the number of females per thousand males) of the state is 988.
- The sex ratio among the districts varies from 950 to 1046 with a median value of 996. Rangareddy, with a sex ratio of 950, has the lowest sex ratio where as Nirmal, with a sex ratio of 1046, ranks highest among the districts in terms of the sex ratio.

Urban and Rural Population

- The urban and rural population of state are 1.36 (38.9%) and 2.13 (61.1%) Crores respectively.
- Hyderabad and Medchal-Malkajgiri are the most urbanised districts in the state, with 100% and 91.5% of their populations residing in urban areas respectively.
- Mulugu has the highest share of rural population at 96.1% followed by Narayanpet at 92.6%.

Social Groups

- The total SC and ST populations of state are 54.09 (15.5%) lakhs and 31.77 (9.1%) lakhs respectively.
- Mancherla has the highest share of SC population with 24.7%, followed by Jayashankar with 22.1%.
- The districts with the least share of SCs are Hyderabad and Medchal-Malkajgiri at 6.3% and 9.4% respectively.
- Maximum of SC population (3.34 lakhs) reside in Rangareddy and the least in Mulugu (0.46 lakhs) districts.
- Mahabubabad has the highest share of ST population (37.8%) followed by Bhadradi Kothagudem (36.7%).
- The districts with the least share of STs reside in Hyderabad and Karimnagar with 1.2% and 1.3% respectively

- Maximum of ST population (3.92 lakhs) reside in Bhadradi Kothagudem and the least in Jogulamba Gadwal (0.09 lakhs) districts.

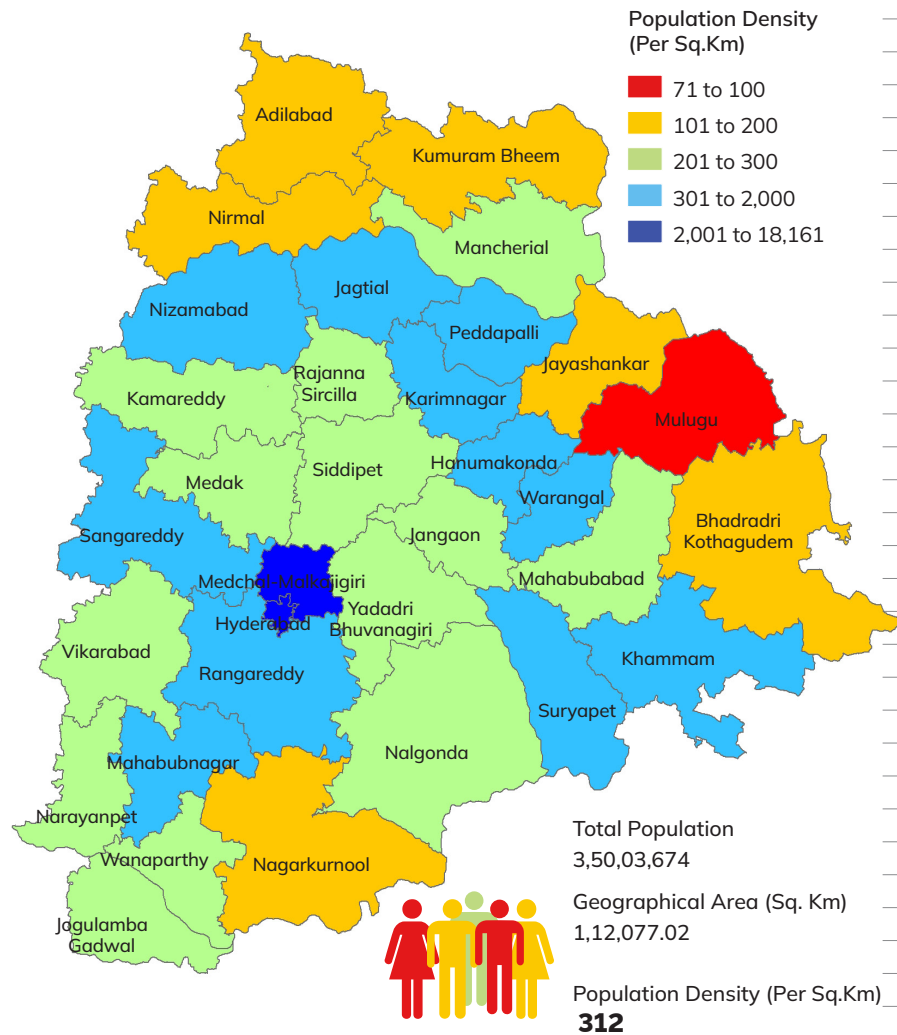

Literacy

- The State's total literacy rate stands at 66.5%.
- 2.06 Crores (> 6 years of age) in the state are literate of which 0.89 Crores are females and 1.17 Crores are males.
- The literacy rate among females and males respectively is 58.0% and 75.0%.
- Four districts have a literacy rate above 70%, namely Hyderabad at 83.2%, Medchal-Malkajgiri at 82.5%, Hanumakonda at 74.2%, and Rangareddy at 71.9%.
- Six districts have male literacy rate above 75%, namely Medchal -Malkajgiri at 87.4%, Hyderabad at 87%, Hanumakonda at 82.7%, Rangareddy at 78.9%, Karimnagar at 77.9%, and Yadadri Bhuvanagiri at 75.5%
- The district with the lowest male literacy rate is Jogulamba Gadwal at 60%
- Two districts have female literacy rate above 75%, namely Hyderabad at 79.3%, and Medchal-Malkajgiri at 77.3%
- Two districts with the lowest female literacy rate are Narayanpet at 39.7%, and Jogulamba Gadwal at 39.5%

Child Sex Ratio

- There are 38,99,166 children (0-6 years) in the state of which 18,81,231 are females and 20,17,935 are males.
- The child sex ratio (0-6 years) in the state is 932.
- The child sex ratio (CSR) among the districts varies from 903 to 971 with a median value of 934.
- Wanaparthy & Mahabubabad with a CSR of 903, has the lowest child sex ratio in the state, whereas Mulugu, with a CSR of 971, has the highest child sex ratio in the state.

1. Introduction

Infrastructure has been defined as "the physical components of interrelated systems providing commodities and services essential to enable, sustain, or enhance societal living conditions. Infrastructure comprising Hard infrastructure and soft infrastructure that includes business, region or nation such as transportation systems, telecommunications network, sewage, tunnels, water supply, electrical grids.

Infrastructure is vital to economic development as it facilitates an increase in productivity, attracts business activity, lowers transports and production costs and improves markets access. Contemporary infrastructure conversations frequently focus on sustainable development and green infrastructure.

Good quality infrastructure is important for attaining faster economic growth, ensuring an improved human development index and broad based participation in development with equitable distribution of benefits.

2. Key Highlights

Energy (as of 31.08.2024)

- Telangana's total contracted capacity of electricity was 19,576 MW of which 44.8% is generated by the state, 19.8% by central and 35.5% by private.
- The generation capacity of the Telangana State Generation Company (TGGENCO) is 6,485 MW, 62.33% of the generation capacity is thermal, 37.48 % is hydel and solar energy accounts for 0.02% of the generation capacity i.e. 1 MW.

- The total contracted capacity of the private sector is 6,944 MW, of which 86.2% is solar energy, 6.3% is gas based energy, 3.9% is thermal energy and 3.6% is non conventional energy (other than solar).
- The construction of Yadadri Ultra Mega Thermal Power Plant at Damaracharla in Nalgonda district with a capacity of 4000 M.W is in the final stages.
- There are 1.86 crore electricity connections in the state, of which 71.9% are domestic connections, 15.5 % are agricultural connections and 12.6% are industrial connections and others.
- The state Government has prioritized electricity for the agriculture sector. There are 28.80 lakh Agriculture consumers.
- Hyderabad district has the highest number of domestic connections (18.65 lakh) and industrial connections and others (4.35 lakh) whereas the highest number of agricultural connections were observed in Nalgonda district (2.35 lakh).

Transport Sector

A total length of roads in the state is 1.10 lakh km, which includes National Highways (NH), Roads & Buildings (R&B), Panchayat Raj (PR) and GHMC departments.

- At present, there are 30 National Highways (NH) in the state of Telangana, covering a length of 4497 Km.
- 6 districts account for 32% of the length of national highways in the state - Nalgonda (273.04 km), Nagarkurnool (252.83 km), Suryapet (252.28

km), and Sangareddy (232.3 km), Mahabubabad (224.7 km), Khammam (210.73 km).

- The Roads and Building (R &B) Department maintains 28,707 km of roads in the state, of which 91.1% is blacktop road, 3.6% is unmetalled road, 3.4% is cement concrete and 1.9% is metalled road with a road density of 0.26 km per sq. km.
- The Panchayati Raj and Rural Development department maintains 68,539.27 km of roads in the state, of which 38.1% is Black top road, 11.3% is metalled road and 6.0% is cement concrete. A major share of the roads, 44.5 % is unmetalled and road density of 0.61 km per sq. km.
- GHMC department maintains 9,013 Km of roads in Rangareddy, Hyderabad, Sangareddy and Medchal-Malkajgiri districts. Out of this length 2,846 Kms are BT Roads and 6,167 Kms are Cement Concrete Roads.

Motor Vehicles

- The total number of motor vehicles registered increased by 2.55% from 9.51 lakh vehicles in 2022-23 to 9.76 lakh vehicles in 2023-24.

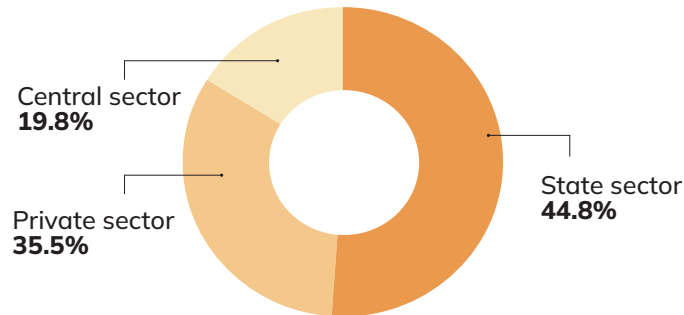

Banking Sector

- There are 5,034 scheduled commercial banks in Telangana, with total deposits worth Rs. 7,69,427 crores and credit worth Rs. 8,47,390 crores for Q1 of 2024-25 The credit-deposit ratio of the state is 110.

Energy - Contracted Capacity (MW)

Contracted Capacity by Sector (%)

Contracted Capacity by Source (MW)

1 State Sector		
i) TGGENCO		6,485
Thermal		4,042
Hydel		2,442
Solar		1
ii) Singareni TPP		1,200
iii) Chhattisgarh Power		1,000
iv) Inter state Hydel		76
Total State Sector (i+ii+iii+iv+v)		8,761

Total Solar		1.00
Total TGGENCO (a+b+c+d)		6,485.26

Source: TGGENCO (as on 31.08.2024)

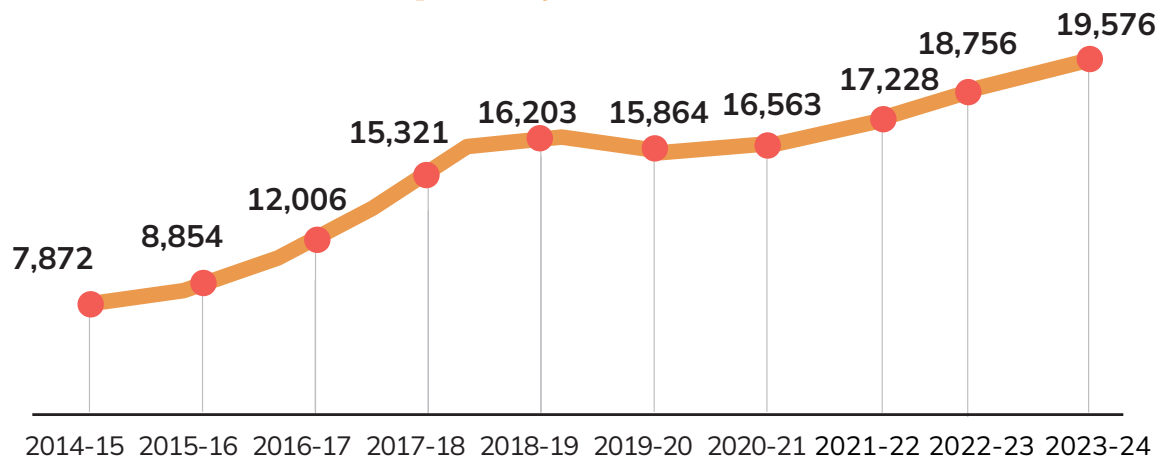

* After formation of Telangana State (Total 2570 MW) - {720 MW Decommissioned at KTPS}

Per-Capita Energy Consumption (kWh)

The Per Capita Consumption of Telangana in 2022-23 is **2,349** units, it is **76.4%** more than all India Per Capita Consumption of **1,331** units.

Contracted Capacity (MW)

Telangana state's contracted capacity has increased from **7,872** MW at the time of the formation of the state to **19,576** MW.

Electrification - Agriculture / Domestic / Industrial/Other Connections

Road Infrastructure in Telangana

Total road length

1,10,756.39 KMs

of which

11,438.06 KMs

are **Cement Concrete,**

59,499.25 KMs

are **Black Top,**

8,291.77 KMs

are **Mettaled roads,**

31,527.32 KMs

are **Un-Mettaled roads**

R&B road length

28,707.43 KMs

of roads in rural areas

PRED road length

68,539.27 KMs

of roads in rural areas

30 National Highways

with a length of

4,497.0 KMs

GHMC road length

9,013 KMs

Outer Ring Road

158 KMs

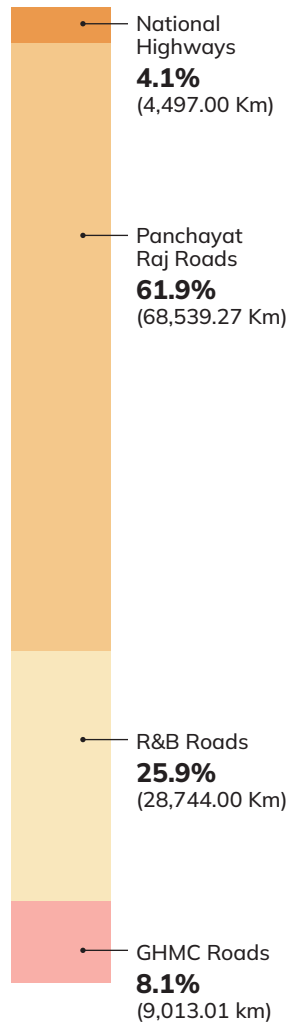

with 20 interchange junctions

1. Introduction

The long-cherished dream of the people of Telangana to have a separate state for themselves finally came true on the 2nd of June, 2014, after a six-decade long relentless struggle. What it received as legacy, however, would've been enough to plant doubts in anyone's mind about its future economic trajectory. 9 out of the 10 districts in the state were then covered under the Backward Regions Grant Fund (BRGF), the Twelfth Five-Year Plan document by the Planning Commission categorized two districts in the state --Khammam and Mahbubnagar--as 'Most Hungry', the agriculture sector in the state was in dire straits with the incidence of farmer suicides being one of the highest in the country, power shortages were more of a norm, than an exception, and the revenue potential of the state was very limited since a majority of the districts were economically backward.

Growth before formation of the State

Telangana's performance in terms of the Gross State Domestic Product (GSDP), which measures the value of all final goods and services produced within state boundaries in a year, reflects the remarkable progress it has achieved since its formation. In the two years preceding state formation, Telangana region's average rate of growth of GSDP (current prices), at 12.1%, was 1.3% less than India's average.

Growth after formation of the State

After state formation, Telangana's GSDP growth rate has been higher than the growth rate of the country for every single year, and the gap has widened with each successive year. In the year of state formation itself, Telangana achieved a 1% higher growth rate of GSDP (current prices) than India's. On an average, Telangana has grown at a 2.2% higher rate than India in the period post 2014-15.

2. Key Highlights

Gross State Domestic Product

As per Provisional Estimates, Telangana's GSDP in 2023-24 was Rs. 15,01,981 crore – 14.5% higher than the previous year value.

The growth rate of Telangana's GSDP in 2023-24, at 14.5%, was the 1st highest amongst the Non-Special Category states (NSC).

The state share accounted for 5.1% of the GDP of India in 2023-24 (PE), even though its contribution to the country's population in the year was only 2.8%.

1. The GSDP of Telangana increased from Rs. 5,05,849 crore in 2014-15 to Rs. 15,01,981 crore in 2023-24 – an increase of 196.9%, making it the 2nd ranking in NSC states in terms of the overall GSDP increase during this period
2. During this period, the GDP of the country increased by only 136.89%.
3. In the two years preceding state formation, Telangana region's average rate of growth of GSDP, at 12.1%, was 1.3 percentage points less than India's average rate of growth of GDP. After state formation, however, Telangana has grown at an average of 12.9% – 2.6 percentage points higher than India's average growth rate of 10.3%.
4. With an average annual growth rate of GSDP of 12.9% from 2014-15 to 2023-24, Telangana surpassed all South Indian states with which it shares similarity in socio-economic circumstances and geographical proximity.
5. The state's share in national GDP increased from 4.1% in 2014-15 to 5.1% in 2023-24, despite its share in the national population remaining constant at 2.8% throughout this period

Sectoral Analysis

The extraordinary overall growth achieved by Telangana has been attained on account of its remarkable performance in the 3 key sectors that contribute to any economy – Agriculture & Allied Sectors, Industries (including mining and quarrying) and Services sector.

The 'Agriculture & Allied Sectors', which are the backbone of rural Telangana, and employ 45.8% of the population of the state, achieved a notable contribution is 15.4% at current prices in 2023-24. In comparison, the sector grew at only 5.7% in Telangana in the same period.

The Industrial sector in Telangana, after experiencing a robust recovery from the pandemic in 2021-22, grew at 9.2% in 2023-24. Whereas All-India growth rate is 8.7%.

The Services sector, which accounts for 66.8% of the state's value added, grew at a remarkable rate of 19.4% in 2023-24, against 9.6% in India.

1. While Telangana started out with a negative 0.7% growth rate in the 'Agriculture & Allied Sectors' in 2014-15, the sector grew at an average annual rate of 14.2% from 2016-17 to 2023-24.

2. Telangana's Agriculture and Allied sector has, in fact, been on an upward growth path for the past ten years, with its growth rate increasing by 6.4 percentage points from 2014-15 to 2023-24.

3. At the time of Telangana's state formation in 2014-15, the industrial sector was growing at a modest rate of 1.5%. Since then, it has achieved an impressive annual average growth rate of 9%.

4. The Services sector in the state has grown in double digit figures in all years since state formation, barring the COVID year of 2020-21

Per Capita Income

In terms of the Per Capita Income (PCI) – one of the strongest economic indicators of the well-being of a population – Telangana's performance in the year 2023-24 was exceptional.

In 2023-24 (PE), the Per Capita Income in Telangana was Rs. 3,56,564 – the highest amongst NSC states.

The PCI in India in the same year was Rs. 1,84,205 – lower than the average income of a Telangana citizen by Rs. 1,72,359.

Telangana's PCI grew by 14.1% between 2022-23 and 2023-24.

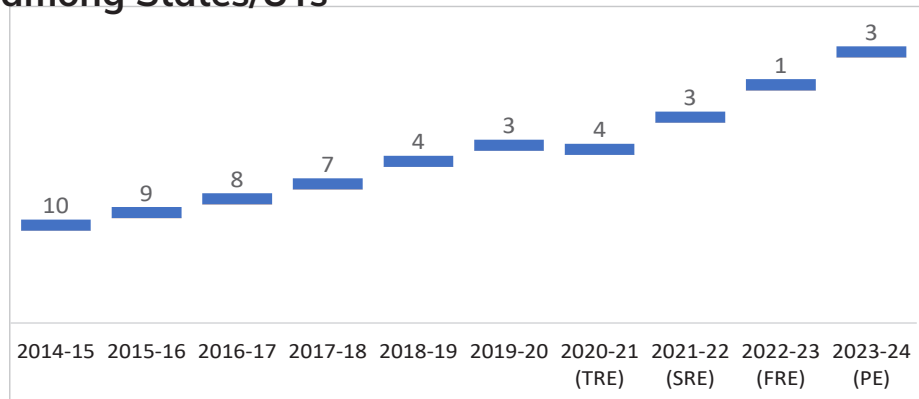

Telangana surpassed all South Indian states with which it shares similarity in socio-economic circumstances and geographical proximity.

1. The Per Capita Income of Telangana of the State for 2023-24 is estimated at Rs.3,56,564 as against Rs.3,12,522 in 2022-23. But the growth rate reflects a decrease from 16.2% in 2022-23 to 14.1% in 2023-24. In the same period, the national PCI is estimated to increase from Rs.1,69,496 to Rs.1,84,205 – but the growth rate reflects a sharp decline from 12.3% in 2022-23 to 8.7% in 2023-24.

2. The PCI of Telangana increased from Rs. 1,24,104 in 2014-15 to Rs. 3,56,564 in 2023-24 – an increase of 187.3%. During this period, the PCI of the country increased by only 112.59%.

3. Based on the average growth rate values, the PCI in Telangana is expected to double approx. 6 years, while that in India is expected to take approx. 8 years to double.

Year wise - Telangana Per Capita Income (PCI) Ranks among States/UTs

Formulas

$$\text{Per Capita Income (PCI)} = \frac{\text{Net State Domestic Product}}{\text{Mid Year Population}}$$

Net State Domestic Product is calculated by subtracting Consumption of Fixed Capital (CFC) from Gross State Domestic Product

$$\text{Compound Annual Growth Rate (CAGR)} = \left[\left(\frac{\text{EV}}{\text{BV}} \right)^{\frac{1}{n}} - 1 \right] \times 100$$

BV Beginning value EV Ending value n Number of years

Rule of 72: No. of years required to income double = 72 / CAGR

GSDP = GVA + Product taxes - Product subsidies

NSVA = GVA - CFC

NSDP = NSVA + Product taxes - Product subsidies

GSVA is defined as the rupee value of the goods and services produced in a state, minus the cost of all inputs and raw materials directly attributable to that production. It is the output of the state less the intermediate consumption, which is the difference between gross output and net output.

$$\text{GSVA} = \text{Output} - \text{Input}$$

or

$$\text{GSVA} = \text{GSDP} + \text{Subsidies on products (SP)} - \text{Taxes on products (TP)}$$

Abbreviations

AAGR:	Average Annual Growth Rate

Telangana Vs All India - GSDP /GDP at Current Prices

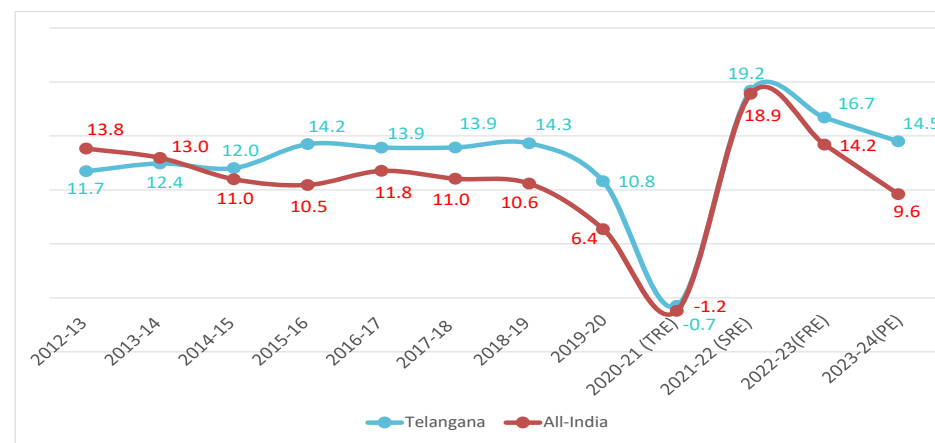

At current prices, the Gross State Domestic Product (GSDP) of Telangana was Rs.15.01 lakh crores and GDP of India was Rs.295.35 lakh crores in 2023-24 (PE). Between 2012-13 and 2023-24, the average annual GSDP growth of Telangana was 12.8% and GDP of India was 10.8%. Between 2014-15 and 2023-24, the average annual GSDP growth of Telangana was 12.9% and GDP of India was 10.3%.

8	Drop Out Rate: High Schools.....	76

1. Introduction

Education is not only a right, it is key to human development and one of the strongest instruments for reducing poverty and improving health, gender equality, ecological and political stability.

School Education is of great significance as it aims to impart essential general education to children in all age groups of 6-14 years and beyond covering elementary, secondary and higher secondary grades. The government has adopted the 10+2+3 pattern of education constituting the Primary stage (Grade 1 to 8) for the first eight years, the next years (Grade 9 to 10) constitute the secondary stage and the final stage of education (Grade 11 to 12) constitute the higher secondary stage.

2. Key Highlights

Number of Schools

- The state has announced English as a medium of instruction in all government schools from academic year 2022-23.
- Total number of schools in Telangana is 40,975 of which 20,539 are primary schools, 7,482 are upper primary schools and 11,561 are high schools, 1,393 are Higher secondary schools.
- Hyderabad district with 2,907 schools has the highest and Jayashankar district with 533 schools has the lowest number of schools in the state.

Gross Enrolment Ratio (GER)

- Gross Enrollment ratio (2022-23) is used to represent the proportion of students within a specific age group, enrolled in a particular level of education (primary, secondary or higher education) compared to total population in that particular age group indicating education participation levels.
- GER in Telangana for Primary (I-V) is 110 %, Upper Primary (VI-VIII) is 107 %, High schools (IX-X) is 95% respectively.
- Rangareddy district has the highest GER among all the districts at Primary, Upper Primary and High schools as 175%, 173%, 149% respectively.
- Jayashankar has the lowest GER among all the districts at all levels- primary (70%), upper primary (59%), High schools (55%)
- 10 districts have GER greater than the state average at the primary level.
- At the upper primary 7 districts and High schools levels 5 districts perform better than the state average.

Dropout Rates

- The dropout rate in the state for primary grades is -2.23%, upper primary is 0.34% and for high schools is 11.95% respectively in the state of Telangana.
- Jayashankar district experienced the highest drop-out rates among primary with (6.07%), upper primary with (7.39%)

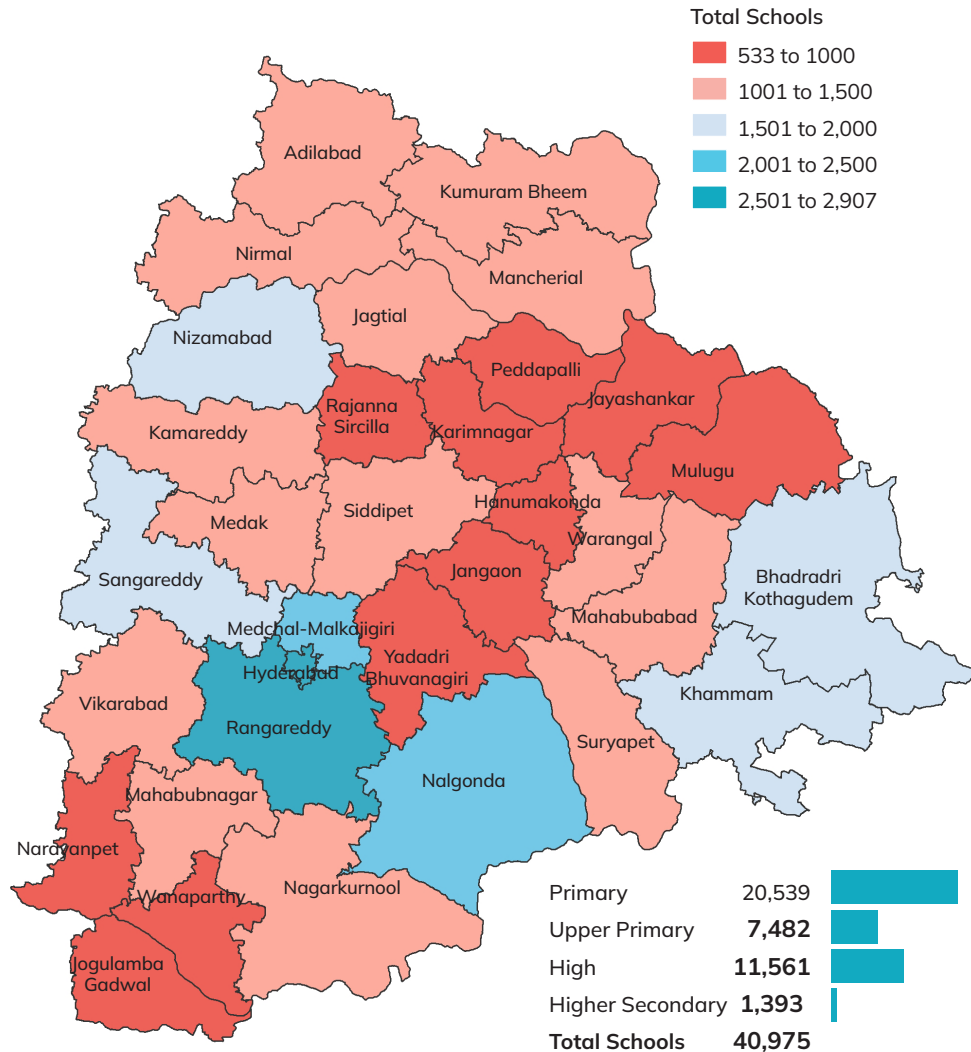

at Kumuram Bheem while Jayashankar, Jogulamba Gadwal and Mahabubabad were recorded highest dropout in High schools (29.82%), (28.83%) and (28.35%)

- Medchal-Malkajgiri district has recorded negative dropout in Primary and Upper primary schools (-14.57%), (-6.06%) respectively and Hanumakonda at high schools (-17.60%)

Teacher-Student Ratio

- As per RTE 2009, the Teacher - Student ratio for grade 1 to 5 (Primary) should be 30:1 and for grades 6 to 8 (Upper Primary should be 35:1). The Teacher-Student ratio in the state at primary level (I-V) is 21, secondary level (VI-VIII) is 16, high school (IX-X) is 22 and higher secondary is 26 indicating a higher Teacher-Student ratio.
- 22 districts in the state have a Teacher-Student ratio less than or equal to the state average at primary schools.
- 21 districts in the state have a Teacher-Student ratio less than or equal to the state average at upper primary schools.
- 23 districts in the state have a Teacher-Student ratio less than or equal to the state average at high schools.
- 13 districts in the state have a Teacher-Student ratio less than or equal to the state average at higher secondary schools.

1. Introduction

- Telangana, is a semi-arid zone and has predominantly hot and dry climate. State experiences tropical climate with slight variations depending on the elevation and maritime influence. The mean annual and standard deviation of rainfall (June to May) of the State is 919.0± 212 mm with a coefficient of variation of 23% and for the southwest monsoon season (June-September) is 738.6± 180 mm with a coefficient of variation of 24%. The mean describes normal amount of rainfall and coefficient of variation show the change from the mean values of rainfall.
- The Southwest monsoon enters the State in June first week and lasts until second week of October. Hyderabad normal onset data is 08 June and withdrawal date 14 October. Southwest monsoon rainfall accounts for 80% of the annual precipitation. Highest contribution to the Southwest monsoon rainfall is coming from the month of July (31.0%) followed by August (29.4%), September (22.0 %) and June (17.5%) respectively.
- Normal Rainfall during Southwest monsoon (SWM) season is highest in Mulugu (1146.1 mm) followed by Kumuram Bheem (1025.8 mm) .Normal Rainfall during Northeast monsoon (NEM) season is highest in Khammam (142.9 mm) followed by Hyderabad (140.9 mm). Northeast monsoon contributes 12.2 % of annual rainfall. Winter rains are negligible in the state (1.3 %); however, sizable summer rains are received in the region (6 %).
- During the period from 1951 to 2024, highest mean

annual rainfall of 1388.8 mm was received in 2022-23 with deviation of 53% and lowest of 559.3 mm was received in 1972-73 with deviation of -38 %

- The highest rainfall received during Southwest monsoon 1989 was 1242.0 mm, Northeast monsoon 1987 was 265.3 mm, Winter season 1986 was 70.5 and Summer season 1990 was 198.0 mm.
- The highest rainfall recorded during 1989 can be attributed to the collective success of Southwest Monsoon with deviation of 62% and Summer with 251% excess in 1990. The lowest rainfall recorded during 1972 can be attributed to the failure of Southwest monsoon rainfall of 431.3 mm with deviation of -42 %.
- The annual rainfall during (June 2023 to May 2024) has a large variability in across the districts with Mulugu receiving the highest rainfall (1507.8 mm) followed by Jayashankar (1443.0 mm) and Nirmal (1359.2 mm). Lowest annual rainfall was noticed by Jogulamba Gadwal (471.0 mm) followed by Nagarkurnool district (495.3 mm).
- The mandal wise annual rainfall shows, Navipet mandal, Nizamabad district receives highest rainfall (1776.2mm) followed by Sirikonda mandal, Adilabad (1751.9 mm) and Venkatapuram mandal, Mulugu (1723.1 mm). Lowest rainfall was noticed in Neredugommu, Nalgonda (310.9 mm) followed by Guttuppal mandal, Nalgonda district (331.5 mm), and Lingal Mandal, Nagalkurnool district (366.2 mm).
- Extreme northern and eastern districts of the state (Adilabad, Kumuram Bheem, Nirmal, Mancherial,

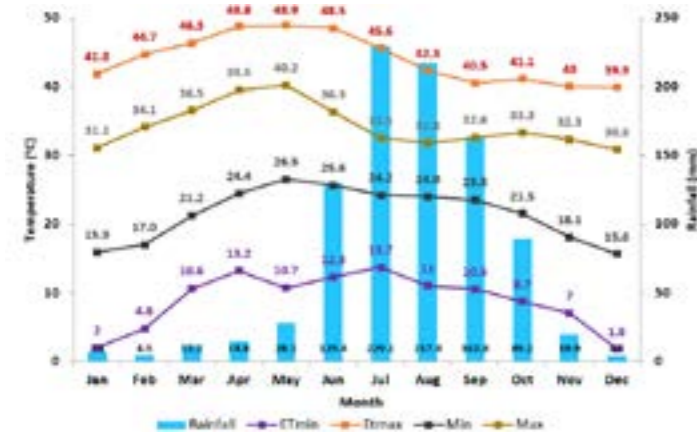

Mulugu) recorded higher number of annual rainy days as compared to extreme southern districts (Mahabubnagar, Wanaparthy, Jogulamba Gadwal, Nagarkurnool) across all timescales. The State average annual Rainy days are 87 with southwest monsoon season accounting to 70.

- The highest annual rainy days are observed from extreme eastern districts with highest over Bhadradi Kothagudem (84 days) and Mulugu (77 days) followed by Kumuram Bheem (75 days) and lowest over southern districts of Jogulamba Gadwal (49 days) followed by Wanaparthy (51 days) and Hyderabad (53 days). Mandal wise highest numbers of rainy days are recorded over venkatapuram (68 days), Wazeed mandal (67 days) (Mulugu) and Burgampadu (Bhadradi Kothagudem) (66 days) and minimum over Marriguda mandal, (Nalgonda) and Narayanapur (Yadadi Buvaagiri) (34 days).
- The daily summer maximum temperatures sometimes reaches up to 48°C over Adilabad, Peddapalli, Mancherial, Nalgonda and Khammam districts during the month of May and in winter minimum temperatures reaches its lowest to 5°C over Adilabad, Kumuram Bheem, Peddapalli, Mancherial and Sangareddy districts in December.
- Telangana presently has 1,750 Ranguage stations, out of which 1,148 are Automatic Ranguages and the remaining 602 are Manual Ranguage stations

Climate of Telangana State

Rainfall (mm)

- Average annual Rainfall is 919.0 mm
- Average annual Rainy days are 87, Dry days 190
- Mean monthly highest rainfall observed in July is 229.1 mm
- Mean monthly lowest rainfall observed in December is 4.1 mm
- Ever recorded Heaviest Rainfall in 24 hours is 649.8mm in Laxmidevipet (M), Mulugu (D) on 27-07-2023.
- South West Monsoon average is 738.6 mm and Rainy days are 70.
- North East Monsoon average is 113.2 mm and Rainy days are 10.
- Winter average is 12.1 mm and Rainy days are 1.
- Summer average is 55.1 mm and Rainy days are 6
- One hour recorded highest rainfall of 177.3 mm between 1 - 2 AM on 27.07.23 at Laxmidevipet (M), Mulugu (D)

Month wise average Rainfall; Temperature - Extreme Max, Min (24hrs) Avg Max, Avg Min

Note: SWM: South West Monsoon; NEM: North East Monsoon

A rainy day has been defined as a day with rainfall of ≥ 2.5 mm recorded in 24hours (08:30 a.m to 08:30 a.m.).

A Dry day has been defined as a day with rainfall < 0.2 mm recorded in 24 hours (08:30 a.m to 08:30 a.m.).

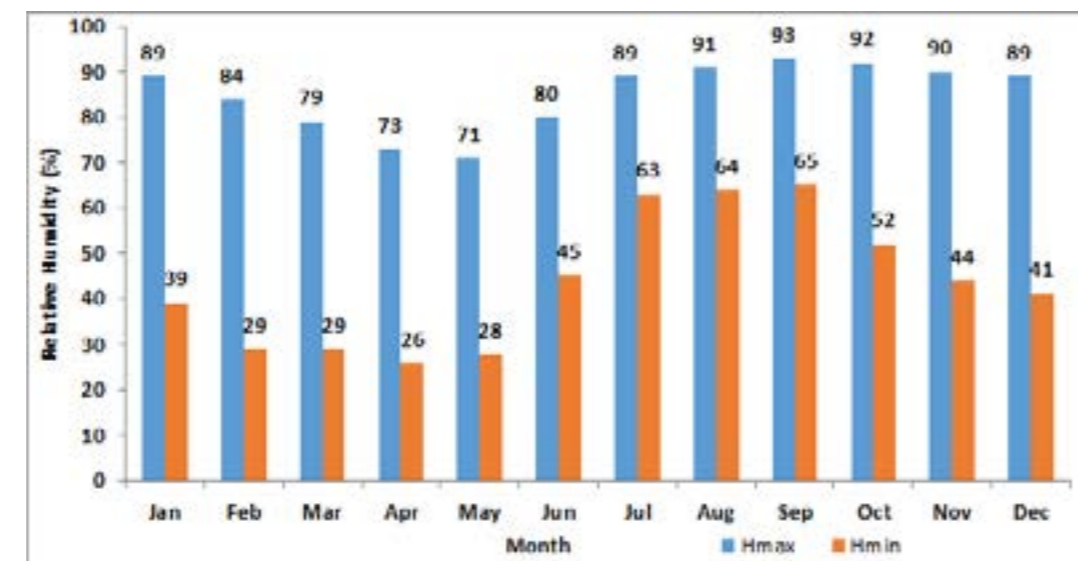

Temperature (°C)

- Average annual Max . Temperature is 34.3 (°C)
- Average annual Min . Temperature is 21.5 (°C)
- Mean Hottest Month observed in May is 40.2 (°C)
- Mean Coldest Month observed in December is 15.6 (°C)
- Ever recorded Max .Temperature is 48.9 (°C) in Dandepalli(M), Mancherial (D) on 21-05-2015
- Ever recorded Min.Temperature is 1.8 (°C) in Sirpur_U (M), Kumuram Bheem (D) on 28-12-2014

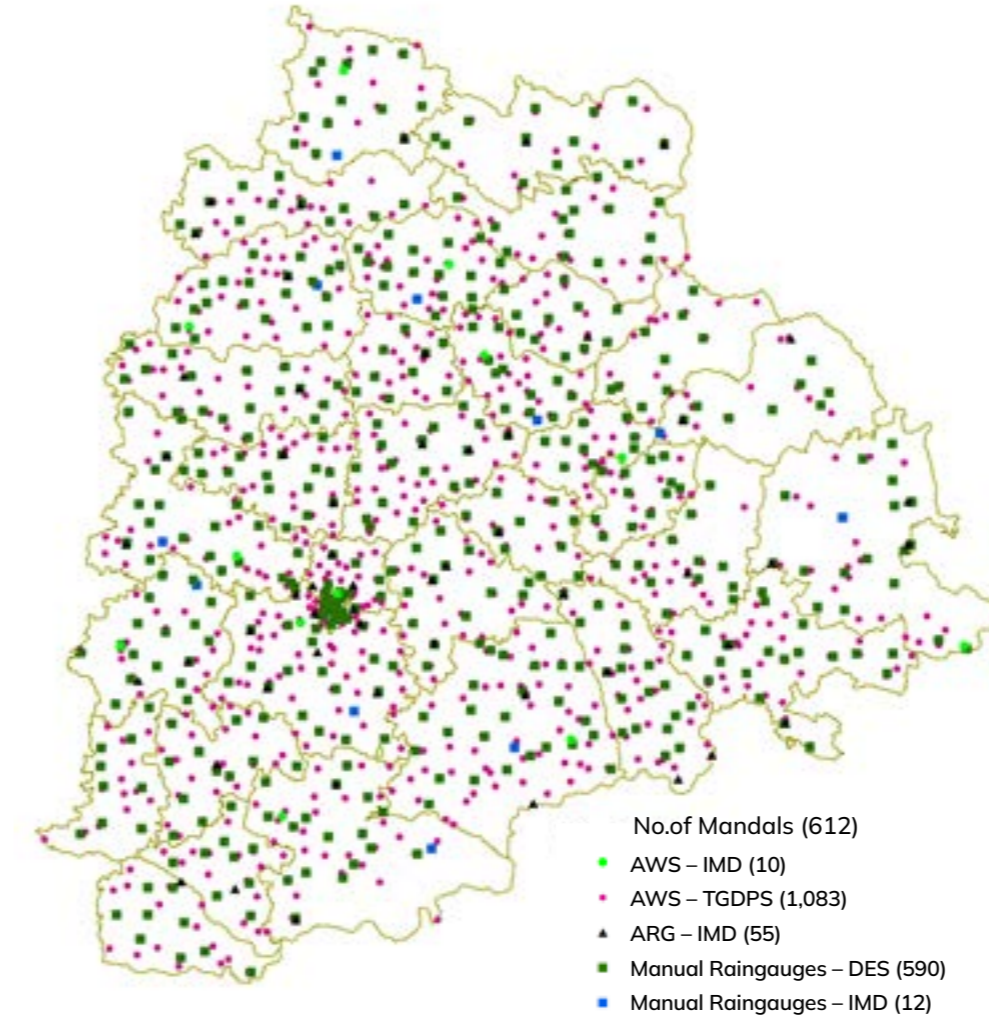

Relative Humidity (%)

- Annual Values of relative humidity are about 65% to 93% in the morning 26% to 71% in the afternoon.
- SWM Avg. RH% Max. is 88, Min. is 59, NEM Avg. RH% Max. is 90, Min. is 46
- Winter Avg. RH% Max. is 87, Min. is 34, Summer Avg. RH% Max. is 74, Min. is 28

1. Introduction

The agriculture sector is the backbone of the rural economy in Telangana. 4 key sub-sectors constitute the 'Agriculture & Allied Sectors' — Crops, Livestock, Forestry and Logging, and Fishing and Aquaculture. The sector is a principal source of employment for around 55% of the population in the state. Since state formation, the contribution of the 'Agriculture and Allied Sectors' to Telangana's Gross State Value Added at current prices has consistently improved from 16.3% in 2014-15 to 18.7% in 2022-23(PE). There was a 155.7% increase in the Gross Value Added by the sector between 2014-15 and 2022-23.

The Government of Telangana has undertaken several initiatives to boost the sector's growth, increase farmers' incomes, and improve farmers' welfare. To achieve these objectives, the Government has implemented policy initiatives such as the flagship Kaleshwaram Project and Mission Kakatiya to improve the irrigation infrastructure, the supply of 24x7 free power to farmers, investment support to farmers under the Rythu Bandhu scheme, access to inputs, markets and credit, and provisioning of life insurance to farmers under the Rythu Bima scheme.

This chapter provides the latest figures on the soil classification, land use pattern and production of major crops, in the state. The data provides an insight into the performance of the agriculture

and allied sectors.

The key observations and insights from the chapter are given in the section that follows.

2. Key Highlights

1. Telangana is predominantly characterized

Based on the rainfall, temperature, nature of soils, etc., Telangana is divided into 3 agro-climatic zones. The soil classification for the different zones is given below:

- a. **Northern Telangana Zone (NTZ):** There are 16 types of soils in NTZ. The predominant soil is shallow black soils (18.4%) followed by deep calcareous soils (16.6%) and red clayey soils (15.2%). Annual rainfall ranges between 867 and 1189 mm, Max. temperatures ranges from 31 to 39°C and Min. temperatures ranges from 14 to 25°C.
- b. **Central Telangana Zone (CTZ):** There are 19 types of soils in CTZ. Red type of soils cover 54% of this zone, followed by calcareous soils (13%), colluvial soils (8%) and black soils (6%). Annual rainfall ranges between 779 and 1213 mm, Max. temperatures ranges from 29 to 39°C and Min. temperatures ranges from 16 to 25°C.
- c. **Southern Telangana Zone (STZ):** There are 19 types of soils in this zone. As a whole, the zone is dominated by different textured red soils with varied depths to an extent of 54.8%, followed by alluvio-colluvial soils and calcareous soils (11.2%). Annual rainfall ranges between 606 and 853 mm, Max. temperatures ranges from 28 to 38°C and Min. temperatures ranges from 16 to 25°C.

by red soil including chalkas and dubbas, shallow to very deep black soil, alluvial soil, laterite and lateritic soils.

2. As per the pattern of land utilisation, 49.65% of the total geographical area falls under Net Area Sown (including fish ponds) (DES, 2023-24)
3. According to the Census of Landholdings (2021-22), there are 70.6 lakh landholdings in Telangana covering a total area of 155.97 lakh acres.
 - a. Marginal farmers (<2.47 acres) hold 68.7% of the landholdings, accounting for 32.7% of the area operated.
 - b. Small farmers (2.48 -4.94 acres) hold 22.7% of the total landholdings, accounting for 35.4% of the area operated.
 - c. Semi-medium farmers (4.95-9.88 acre) hold 7.1% of the total landholdings, accounting for 20.6% of the area operated.
 - d. Medium farmers (9.89-24.7 acre) hold 1.4% of the total landholdings, accounting for 8.7% of the area operated.
 - e. Large farmers (>24.7 acres) hold 0.1% of total landholdings , accounting for 2.6% of the area operated.

4. Among the predominant social groups in Telangana (Agricultural Census - 2021-22).
 - a. Scheduled Tribes (STs) own 13.9% of landholdings, covering 9.7% of the area operated.
 - b. Scheduled Castes (SCs) own 11.8% of landholdings covering 11.9% of the area operated.
 - c. 74.3% of the landholdings belonged to the 'Others' category and covers 78.2% of the area operated.
5. The total production of Paddy in Telangana was 260.88 lakh tonnes in 2023-24. The districts of Nalgonda and Nizamabad were the highest contributors to the production of Paddy accounting for 5.2% and 5.6% of the total production respectively.
6. The total production of millets (jowar, bajra, maize, ragi, and korra) in Telangana was 30.33 lakh tonnes in 2023-24. The district of Nirmal and Warangal were the highest contributors to the production of millets accounting for 14.10% and 9.51% of the total production respectively.
7. The total production of pulses was 3.61 lakh tonnes in 2023-24 in Telangana. Adilabad and Kamareddy districts were the highest contributors to the production of pulses accounting for 19.81% and 14.04% of the total

state production respectively.

8. The total production of foodgrains (cereals, millets, and pulses) in Telangana was 207.93 lakh tonnes in 2023-24. Nizamabad & Nalgonda districts were the highest contributors to the production of food grains accounting for 7.96% and 6.55% of the total state production respectively.
9. The two major spices produced in Telangana are chillies and turmeric.
 - a. The total production of chillies in 2023-24 was 4.66 lakh tonnes. one-fourth of the total production came from the Khammam district (28.7%).
 - b. The total production of turmeric in 2022-23 was 1.74 lakh tonnes. Major contributors to the production of turmeric were the districts of Nizamabad (37.9%) and Jagtial (32.1%).
10. The dominant fibre crop produced in Telangana is cotton. The total production of cotton kapas in the state in the year 2023-24 was 26.34 lakh tonnes, and that of cotton lint was 50.76 lakh bales.

11. The total production of tobacco, which is predominantly produced in all the districts of Telangana and the production was 13,967 tonnes in 2023-24. 49.7% of the total tobacco production came from Jogulamba Gadwal district, followed by Nizamabad district, which accounted for 18.6% of the total production.

12 Crop Loan Waiver

Taking the farmers' plight and breaking the vicious cycle of the debt trap, the state government has announced a Crop Loan Waiver Scheme to waive all kinds of crop loans of farmers up to Rs.2 lakh. During the 2023-24 period, a total of 16,76,418 farmers benefitted from this scheme, with a waiver amounting to Rs. 11,581.60 crores. From April 1, 2024, to August 30, 2024, the number of beneficiaries increased to 2,205,408, with a total waiver of Rs. 17,770.99 crores.

Pattern of Land Utilization - 2023-24

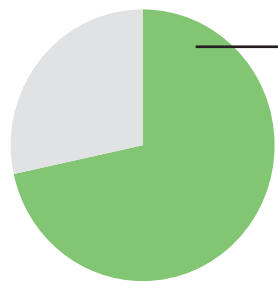

S.No.	Land Utilization	Area (Acres)	Area (ha)	% to Total Geographical Area

1. Introduction

Animal Husbandry provides an additional income and employment to the farmers. Livestock is vital to socio-economic and cultural life, especially for small farmers and resource-poor families. Integral to mixed farming systems, providing manure and draught power for crops while benefiting from crop by-products. Livestock sector provides livelihood opportunities to about 29 lakh families and contributes significantly to rural livelihoods, rural development and poverty alleviation programmes in the state

Livestock in Telangana

Telangana is a leading state in livestock and poultry resources in India. As per 20th Livestock population Telangana stands 8th in Livestock population, first in Sheep and 3rd in Poultry population.

Major livestock products include:

- Milk production: Increased from 42.07 lakh tonnes (2014-15) to 57.22 lakh tonnes (2023-24 PE). Rangareddy and Hanumakonda were the top districts in milk production as per 2023-24 PE
- Meat production: Doubled from 5.05 lakh tonnes (2014-15) to 10.97 lakh tonnes (2023-24 PE). Rangareddy and Sangareddy were the top districts in meat production
- Egg production: Grew from 106 crore eggs (2014-15) to 184 crore eggs (2023-24 PE). Rangareddy and Siddipet were the top districts in egg production.

Contribution of Livestock sector to Economy

Livestock sector contributes 7.4% to Telangana's Gross State Domestic Product

(GSDP) and 46.71% to the agriculture sector (2023-24 Advance estimates).

Significant growth in per capita availability of:

- Milk: From 321 gm/day (2014-15) to 423 gm/day (2022-23).
- Eggs: From 272/year (2014-15) to 392/year (2022-23).
- Meat: From 12.95 kg/year (2014-15) to 23.97 kg/year (2022-23).

Fish and Prawn Production

- The total production of inland fish and prawns in the year 2023-24 was 4.39 lakh tonnes and 16,532 tonnes respectively. The highest contributing districts were Nalgonda (6.8%) and Nirmal (6.1%) for inland fish and Nalgonda (8.9%) and Nizamabad (7.1%) for prawns.

Livestock Population of India and Telangana (% of contribution to India)

1. Introduction

The industrial sector plays a pivotal role in any economy by contributing towards its economic growth, employment, and overall development. In Telangana, the vision for industrialisation is “Research to Innovation, Innovation to Industry, Industry to Prosperity”. In order to bring this vision to reality in an expedited manner, the Government designed the Telangana State Industrial policy, which provides a framework for stabilising the existing industries and attracting new ones across the entire industrial spectrum.

A clear vision and steadfast implementation have ushered in a new era of entrepreneurial growth and employment opportunities in the state. Its achievements in the industrial sector have been brought about by establishment of innovative business hubs like T-Hub – the world’s largest innovation centre, T-works – India’s largest prototyping centre and WeHub – the country’s first incubator for women entrepreneurs. Additionally, the state’s tech initiatives like TS-iPASS, which ensures industrial clearances within 30 days, and TS-bPASS, which provides hassle-free online building and layout approvals, have played a vital role in setting new standards in efficiency and effectiveness.

The Government’s commitment towards following a policy of minimum inspection and maximum facilitation have further helped transform the face of industry in the state, and has helped Telangana become a leader in the industrial space.

Annual Survey of Industries (ASI)

India’s organised sector consists of units that are formally registered with the central/state governments. The data of these registered entities is collected formally through Annual Survey of Industries (ASI). It is the principal source of industrial statistics in India and the objective of the survey is to estimate the contribution of registered manufacturing industries as a whole to state income. It covers all factories registered under sections 2(m) (i) and 2(m) (ii) of the Factories Act, 1948, where the manufacturing process is defined under section 2(k) of the said act.

2. Key Highlights

Urban districts like Rangareddy, Medchal-malkajgiri, and Sangareddy have higher concentration of factories accounting 43.4% of the total factories, 39.5% of the total workers, and 43.2% employees in the state, indicating that these districts are the hubs for industrial production. They also account for a significant share of output (58.7%) and Gross Value Added (56%), highlighting their economic significance to the state.

Other key insights are mentioned below:

Factories :

Telangana accounted for 5.16% of the total factories in India in 2022-23, ranking 8th amongst all states and UTs.

With 23.5% of the factories in the state, Medchal-Malkajgiri accounted for the highest number of factories amongst all districts in the state.

Workers :

In 2022-23, Telangana ranked 7th among all states & UTs in the country in terms of the number of workers in formal manufacturing.

The state accounted for 5.24% of the country’s formal manufacturing workers, even though its contribution to the national population was only 2.8%.

Nizamabad district had the highest number of workers engaged in factories in the state, at 27.57%.

Fixed Capital :

Telangana’s total fixed capital in 2021-22 was Rs. 1,07,19,276 reflecting the resources allocated to setting up and improving industrial infrastructure.

Rangareddy, Sangareddy, Medchal-malkajgiri districts were respectively the top 3 districts in terms of the district-wise fixed capital in the state. They collectively accounted for 46.3% of the state’s total fixed capital, indicating high industrial infrastructure among districts.

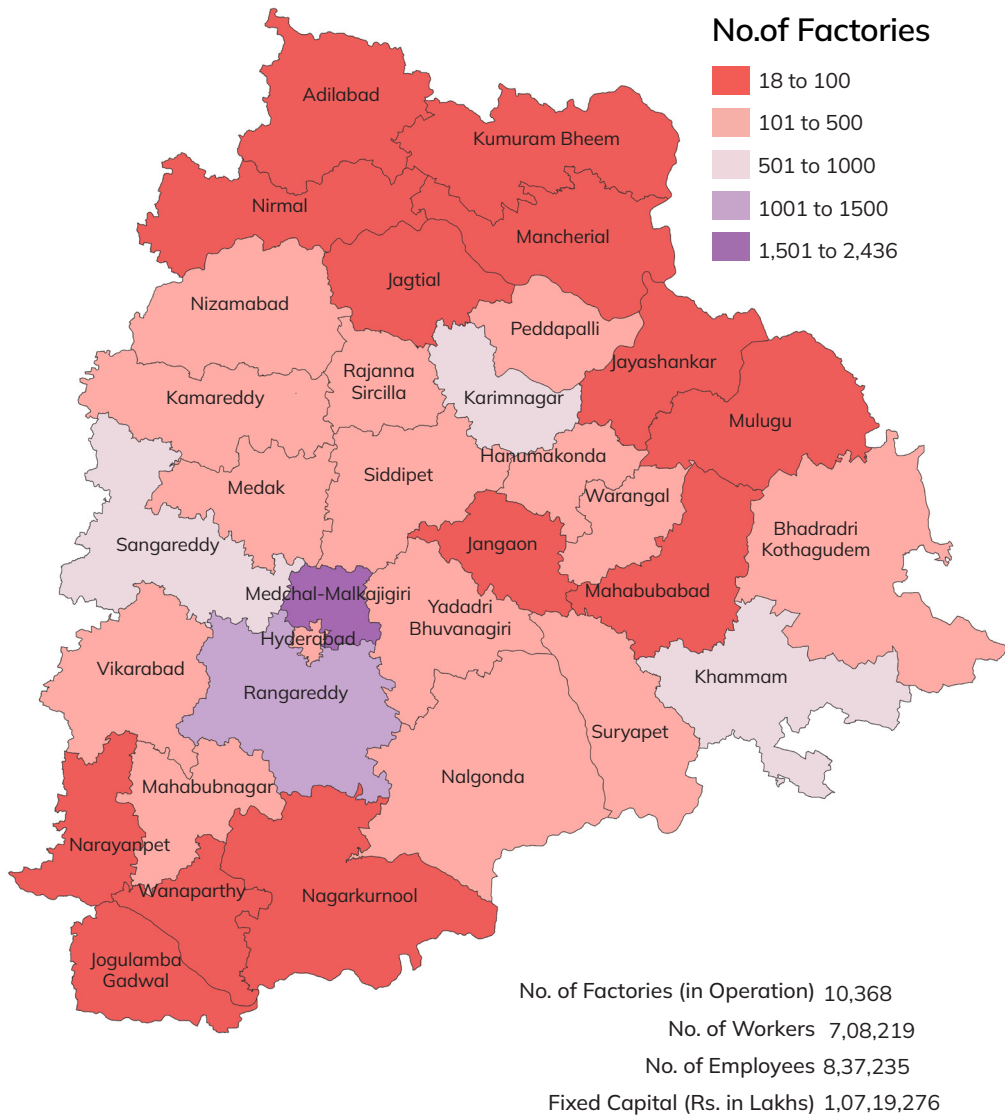

Gross Value Added :

Telangana played a critical role in the economy of the country, contributing 3.37% to the total industrial GVA of the country in 2022-23. As against this, only 2.8% of the national population were citizens of Telangana in that year.

The state ranked 9th amongst all states and UTs in the country in terms of its contribution to the national industrial GVA.

Medchal-malkajgiri, Sangareddy, and Rangareddy districts were respectively the top 3 contributors to the state industrial GVA in 2022-23.

Introduction

Health Status of population has been widely considered as a development indicator that reflects a variety of socio-economic factors. In line with the United Nations' Sustainable Development goals and global health priorities, Telangana's vision for the health sector is comprehensive. By focusing on universal access, quality care and prevention, technology integration, community engagement and global collaboration, nutrition status of women and children the state is steadfastly committed to fostering a healthier and more prosperous future for all its citizens.

Key Highlights

Health Programmes and Schemes

MCH Kit

- The MCH kit has both cash and kind components. A Cash component of Rs. 12,000 for male child and Rs. 13,000 for female child will be released in four installments linked to key milestones of ante-natal checkup and immunization whereas a kind component that comprises mother and baby kit with 14 items is given to the mother immediately after the delivery.
- 2,08,950 MCH kits were distributed during 2023-24.

Aarogyasri

- Aarogyasri Scheme is a unique Government Sponsored Health Insurance Scheme

implemented by the state with an objective of providing quality healthcare to Below Poverty Line families with coverage up to 5 lakh per family per year (and up to 10 lakh for high end procedures).

- 3,55,494 individuals benefited under the scheme from April 2023 to March 2024 contributing to improved healthcare outcomes.

Child Malnutrition

- Out of 18,93,926 total children, 18,58,692 are weighed children in the state, 18,18,589 are normal children accounting for 98.24% of the total.
- 1.76% children in the state, are malnourished.
- Out of the total malnourished children, 1.36% are severely malnourished and 0.39% are moderately malnourished.

Supplementary Nutrition

- In 2023-24, 44,1166 mothers were enrolled for the supplementary nutrition programme in Telangana, out of which 71.4% of the mothers, i.e. 3,14,997 mothers received supplementary nutrition.
- The share of enrolled mothers who received supplementary nutrition is the highest in Vikarabad at 79.8% and lowest in Hyderabad at 51.7%.
- In 2023-24, 18,04,997 children were enrolled

for the supplementary nutrition programme in Telangana, out of which 74.8% of the children, i.e. 13,49,550 children received supplementary nutrition.

- The share of enrolled children who received supplementary nutrition is the highest in Vikarabad at 85.4% and lowest in Medchal-Malkajgiri at 60.3%.
- 18,93,926 children were enrolled for child care supplementary nutrition programme in 2023-24, out of which 18,51,113 (i.e 97.7%) children received child care supplementary nutrition.
- The share of enrolled children who received child care supplementary nutrition is highest in Medak at 87.3 %.
- Out of 13,93,926 children in the state, 96.1% of children are normal children and 1.3% children are moderately malnourished and 0.38% children are severely malnourished.

Health Indices (Telangana Vs All-India)

S.No	Indicator	Definition	Telangana		All-India	
			SRS Bulletin - 2020	SRS Bulletin - 2019	SRS Bulletin - 2020	SRS Bulletin - 2019
1	 Birth Rate	No. of live births per 1000 population per year	16.4	16.7	19.5	19.7

1. Introduction

Social Security refers to the programmes/schemes implemented by governments to provide financial support and benefits to citizens who are poor and unable to either work or get a decent wage due to various reasons including unemployment, old age, disability, serious health issues, social exclusion, or loss of a breadwinner.

In order to alleviate poverty, inequality, and exclusion in the state, the Government of Telangana has launched a series of welfare schemes since state formation.

These measures to ensure social security and welfare have been supplemented by the creation of employment opportunities through the Mahatma Gandhi National Rural Employment Guarantee Act, and other state-level initiatives.

2. Key Highlights

Cheyutha Pensions

- Cheyutha pension scheme is meant to protect the most vulnerable sections of society in particular the old and infirm, disabled persons, people with HIV-AIDS, widows, incapacitated weavers and toddy tappers, who have lost their means of livelihood with growing age, in order to support their day to day minimum needs required to lead a life of dignity and social security.
- With a view to combat the ever-increasing cost of living and inflation, the Telangana Government introduced a new Pension scheme called 'Cheyutha'.

Now the monthly pension is being released at Rs. 2016/- to the old age pensioners, widows, weavers, toddy tappers & aids patients and Rs. 3016 to the disabled persons. Further government is extending financial assistance @ Rs.2016/- to Beedi workers from March, 2015 and Single women from April, 2017 onwards. Further Dialysis category is also newly included from September, 2022 onwards.

- The Government have reduced age from 65 years to 57 years as eligibility for Old age pension and also approved for instant sanction of Pension to the spouse in case of death of actual pensioner.
- The quantum of monthly pension for Differently Abled Persons (Persons with Disabilities) has been enhanced from Rs.3016/- to Rs.4016/- from July 2023 onwards.

Number of Beneficiaries in 2023-24		
Pension @Amount	No. of beneficiaries	% to Total Pensions
Old Age @Rs.2,016	16,09,721	36.05

Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)

- The MGNREG Act provides minimum of 100 days of guaranteed wage employment in a financial year to every rural household whose adult members volunteer to do unskilled manual work at the notified wage rate.

- Presently, 1,04,76,052 people were registered under MGNREGA in the year 2023-24 out of which 40,62,119 are working comprising of 58% women, and 42% men beneficiaries and in the year 2024-25 (upto 31.10.2024) out of which 40,07,115 are working comprising of 59% women, and 41% men beneficiaries

Self Help Groups (SHGs)

- SHGs aim to empower rural women living in poverty by organizing them into community-based organizations. The goal is to alleviate rural poverty and promote overall development, enabling these women to lead a dignified life.
- A total of 46,28,158 rural women, who are among the most vulnerable and marginalized in the society, have come together to form 4,31,742 Self-Help Groups (SHGs).

The main aim is to organize all urban poor women into Self Help Groups (SHGs) and enable them to become self-reliant under Social Mobilization and Institution Development.

- The revolving fund is provided to the Self Help Groups (SHGs) to inculcate the habit of thrift and credit. A one-time Revolving Fund support of Rs.10,000/- will be provided to each SHG.

Public Distribution System

The Civil Supplies Department provides essential commodities to the food security card holders at subsidised rates under PDS. These commodities are distributed through a network of 17,235 fair price shops spread across the state.

Note: The Anthyodaya cards are issued to poorest of the poor, single persons and the disabled, under which 35 kg of rice is given per month at Rs.1 per kg.

The Annapurna cards are issued to senior citizens with no other means of survival, under which 10 kg of rice is distributed free.

Introduction

Abhaya Hastham

The government is going to fulfil the "Six Guarantees" (Abhaya Hastham) to enhance individual's wellbeing through comprehensive measures. These initiatives benefit people from various sectors, including agricultural workers, tenants, labourers, women, children, and those with disabilities. The primary goal is to support individuals in achieving financial and economic progress.

The six guarantees are "Mahalakshmi", "Rythu Bharosa", "Gruha Jyothi", "Indiramma Indlu", "Yuva Vikasam", and "Cheyutha" and they are collectively known as Abhaya Hastham.

Key Highlights

Mahalakshmi Scheme:

1. Free bus travel for women across the State

- The "Mahalakshmi" scheme, introduced by the Government, offers free bus travel to girls, women of all age groups, and transgender persons who are domiciles of Telangana.
- This scheme allows them to travel freely in District Ordinary (Pallevelugu and Mini Pallevelugu), District Express, City Ordinary, and City Metro Express buses operated by the Telangana State Road Transport Corporation starting from 9th December 2023.
- As on 31-03-2024, Rs.1163.08 Crores has been spent by Government.

2. LPG cylinder at Rs. 500

- The Mahalakshmi LPG scheme, launched on February 27, 2024, is currently being implemented with clear guidelines and modalities issued under G.O.Ms.No.2, dated 27-02-2024, by the Civil Supplies Department.

- This initiative aims to provide affordable LPG @ Rs. 500/-, ensuring greater access to clean cooking fuel.
- During FY 2023-24, the total beneficiaries covered under this scheme are 39,57,637 and during FY 2024-25 as on 30-08-2024 it is 42,90,127.

Gruha Jyothi

- As part of implementing the six guarantees, the state government has launched the 'Gruha Jyothi' scheme, offering free electricity up to 200 units per month for eligible domestic households starting from March 2024.
- The scheme aims to alleviate the financial burden on families, especially those in economically weaker sections of society.
- W.e.f 01-03-2024 to 31-08-2024, the expenditure incurred in this scheme is Rs.808.33 crores
